## XPS55M Manual Sweeper

Operation Principle : The power of the product comes from hand pushing. The tire rotation drives the belt to pass it to the inner "roll brush" and the two front "side brushes" to rotate, so that the garbage can be collected into the inner dustbin.

### Technical Parameters

|                         |              |
|-------------------------|--------------|
| Model:                  | XPS55M       |
| Power :                 | Manua        |
| Maximum Speed :         | 0-6km/h      |
| Voltage :               | /            |
| G/N Weight :            | 28kg/25kg    |
| Garbage Tran Capacity : | 55L          |
| Water Tank Capacity :   | /            |
| Dimension(L*W*H) :      | 0.981.31.03m |
| Sweeping Width :        | 980mm        |
